THE SOCIAL BIKE

Duo bike Orthros

The comfortable duo bike with unique seat position adjustment

Do you like to go out together and enjoy the outdoors? The Orthros duo bike makes it possible (again) to make pleasant trips together by bicycle! A chat on the way is thus much easier! The Orthros can be personalized to your individual needs and circumstances, depending on your preferences. Thanks to the ingenious robust construction, the road holding is very stable. Together you will make the most beautiful memories on the Orthros duo bike.

We continuously innovate and optimize our bikes so that your bike is equipped with the best materials, latest technology and optimal comfort. For example, the Orthros comes standard with powerful pedal assistance, swivel co-driver seat, parking brake, light-action hydraulic disc brakes front and rear, 8-speed freewheel hub, anti-puncture tires and a safety lock.

The seat is equipped with unique ergonomic diagonal seat position adjustment. Thanks to this adjustment, you create the ideal cycling position, reducing stress on your joints in your arms, legs and neck. The water-repellent integrated seat and back cushions feature comfortable foam. The cushions are not easily removed to prevent theft.

- ✓ Unique diagonal seat position adjustment, so the ideal cycling position can always be taken.
- ✓ Extremely stable and maneuverable due to its ingenious robust construction, differential and low center of gravity.
- ✓ Eye contact and a pleasant chat while cycling are easy to make.
- ✓ Very powerful pedal assistance. Also great for hilly terrain.
- ✓ Features 8 gears and the option of active, passive or no co-driver pedaling for the passenger.
- ✓ 10 year warranty on the frame and front fork.

Electrical support

The Orthros comes standard with a powerful pedal assist. Here, the motor drives the rear wheel assembly for the most efficient transmission. The pedal support is equipped with a clear display, large 750 Wh battery and 5 support modes. Guaranteed appropriate support in every situation!

Personalize your Orthros

Besides the extensive basic equipment we offer, your Orthros can be fitted with various options and accessories. Think of a footboard, armrest set or roll-up belt. Do you make frequent use of the Huka duo bike with several people? Then let us advise you which parts and accessories can add value to make the bike multi-purpose!

- For example, the Orthros duo bike can be equipped with an adjustable freewheel to allow the co-driver to actively, passively or not pedal. You adjust the desired position while cycling.
- Another option is a separate gear hub for the co-driver, so that you can always cycle along at your own level.

Curious about other options? Check them out on our website or inquire through your supplier.

Colors

The Orthros duo bike comes standard in a luxurious shade of gray: gun metal silver with a matte look or in bright metallic blue (RAL 5025). Would you like to personalize your Orthros? We can! We can make the Orthros in any RAL color for you.
