

AT-B PRICELIST 2026

The standard version* of the AT-B is already a complete and first-class tricycle. For some of these standard components (indicated with -), we offer an alternative. In this case, a mandatory choice must be made between the basic version or the alternative. Additionally, you also have the option to personalize your AT-B with additional accessories. Use our bike configurator on our website or consult your bike dealer for assistance. *For a detailed description of the standard version of the AT-B, please refer to the document titled 'Technical Product Information'.
