SUITABLE FOR CHILDREN & ADULTS

Tandem Copilot

Pleasure in front, for the best cycling experience!

Are you looking for a tandem where the passenger gets the most out of the cycling experience and the rider retains maximum control? Try the Copilot tandem! It's the ideal solution if you still want to cycle but can no longer do so independently. The Copilot gives both cyclists the freedom and control you desire. With the Copilot tandem, the accompanying rider sits at the back rather than at the front. This ensures the accompanying rider always has a clear view of the passenger. The tandem can also be adapted to your specific preferences and requirements. In short, with the Copilot tandem, you can cycle together with ease!

We look at individual cyclists and their needs and want to match them as well as possible. This way, we continuously innovate and optimize our bikes, so that your bike is equipped with the best materials, latest technology and optimum comfort. For example, the attendant is positioned higher than the co-driver to keep a good overview of the traffic. In addition, you can easily get on and off with the Copilot. The lighting ensures that you can see well and are being seen in the dark.

The tandem Copilot is equipped with a low step-in entry, easy-to-use hydraulic hand brakes, a large closed modern chain guard and an AXA cable lock.

- ✓ The co-driver, who is at the front, experiences the most cycling experience. The companion has the most control who has the view of traffic as well at the co-driver.
- ✓ Both the co-steering function and the co-pedal function are adjustable for the co-driver.
- ✓ Available with and without electrical assistance (Bafang) in two models: supervisor - child (24") & supervisor - adult (26")
- ✓ Equipped with rear hydraulic disc brakes, which require less hand power.
- ✓ 10-year warranty on the frame. After registration at www.hukabikes.com/warranty.

Electrical support

The Copilot is available with an auxiliary motor (PAS vario). With the help of this drive it is easier to pedal and therefore less tiring. This silent pedal support is standard supplied with a drive help, five travel speed settings and a clear display.

Make you Copilot personal

In addition to the extra accessories that we can offer, such as hip support, trunk support, foot fixations etc.

We also provide customized solutions. That way we can make personal adjustments to your bike. Your special need is a challenge for us!

The Copilot can be expanded with various accessories and options. Think of another seat, handlebars or pedals.

Colors

The tandem Copilot 24 (co-driver in front, child - starting at the age of 4 years) is available in:

- White (RAL9016)
- Pearl dark grey (RAL9023)

The tandem Copilot 26 (adult co-driver in front) is available in:

- White (RAL9016)
- Pearl dark grey (RAL9023)

Any other RAL colors are available on request.
