

The base Copilot 3-24 is already a complete and first-class tricycle. For some of these standard components (indicated with -), we offer an alternative. In this case, a mandatory choice must be made between the basic version or the alternative. Additionally, you also have the option to personalize your Copilot 3-24 with additional accessories. Use our bike configurator on our website or consult your bike dealer for assistance.

*For a detailed description of the standard version of the Copilot 3-24, please refer to the document titled 'Technical Product Information'.
